

JAGAN U

FULL STACK DEVELOPER

EMAIL: jagan142000@gmail.com | PH.NO: +91 9566810884 | LINKEDIN: www.linkedin.com/in/jagan-u-oabbo936b

SUMMARY

- Passionate and self-motivated **Full Stack Developer** with strong understanding of object-oriented programming and software development lifecycle.
- Proficient in **Java and basic web technologies**.
- Ready to adapt to new technologies and take on challenging roles.
- Eager to start a professional career and contribute meaningfully to a dynamic organization.
- Good understanding of **SQL** and **relational databases**, with hands-on experience using **MySQL** in academic projects

TECHNICAL SKILLS

- **Languages:**
 - Java
 - SQL
- **Web Development:**
 - HTML
 - CSS
 - Java Script
- **Databases:**
 - MySql

CERTIFICATION

- **QSpiders, Vadapalani, Chennai - Full Stack Development**
 - Completed hands-on training in **Core Java, JDBC, Servlets, JSP, Spring, Hibernate**
 - Gained frontend skills in **HTML, CSS, JavaScript, and basics of React/Angular**
 - Learned **SQL** and database management using **MySQL**
 - Built mini-projects and participated in mock interviews, enhancing technical and communication skills.
 - Understood **MVC architecture** and implemented full-stack flows using Spring **MVC and MySQL**.
 - Worked on connecting frontend forms with backend using **Servlets and JSP**.
 - Practiced writing optimized SQL queries for **CRUD operations**.
 - Improved confidence through daily coding challenges and debugging exercises.

PROJECTS

Student Management System (Full Stack Java)

- Built a simple web application to manage student records (add, update, view, delete) as part of self-learning and practice
- Developed full **CRUD (Create, Read, Update, Delete) operations** for student data.
- Used Spring Boot to build the backend with **Java** and connect to a **MySQL** database.
- Created frontend pages using **JSP** and styled with **HTML/CSS**.
- Learned and applied **MVC architecture** to separate logic and improve code clarity.
- Used Spring Data **JPA** to easily interact with the database.
- Added features like form validation and error messages to improve user experience.
- Improved confidence in working with Java, databases, and Spring Boot.

EDUCATION

- B.E in Industrial Engineering and Management, **PSN Institute of Technology and Science**, Tirunelveli (2022-2025)
 - CGPA: 7.2/10
- Diploma in Mechanical Engineering, **Government Polytechnic College**, Tuticorin
 - CGPA: 69
- SSLC in **Veeramamunivar R.C Higher Secondary School**, Tenkasi.
 - CGPA: 89

SOFT SKILLS

- Problem Solving
- Team Collaboration
- Quick Learner
- Adaptability
